PROFILE

Hi, I'm **IBANZE Miracle**, a passionate web developer with expertise in **front-end** and **back-end** technologies. I specialize in building **responsive, user-friendly applications** using **Next.js, React.js**, **Tailwind CSS**, **Node.js**, and **Express**.I've worked on projects like **IMBONI Learn E-learning Platform**, where I've focused on delivering seamless user experiences and high-quality web solutions. Let's connect and build something amazing!

SKILLS

Programming Languages
JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass

Back-End Development
Node.js, Express.js, REST APIs, WebSocket, Socket.io, JSON web token

State Management
Redux, Redux Toolkit, Context API

Front-End Development
Next.js, React.js, Tailwind CSS, Sass, Responsive Web Design

Database Management
MongoDB, Mongoose, PostgreSQL

Other relevant Skills:
Git, GitHub, Code Refactoring, Load Time Reduction, Cross-Browser Compatibility and others

PROFESSIONAL EXPERIENCE

Freelance web developer Kigali, Rwanda
self-employed
- **Built IMBONI Learn** : A full-stack real estate marketplace platform using React.js, Node.js, Express, and MongoDB, with real-time communication features powered by WebSocket, offering seamless property browsing and notifications.
- **Built IMConnect** : A full-stack platform for seamless user communication with Node.js, Express, and React.js, enabling real-time interaction with Socket.io.
- **Developed front-end applications** like **IMMovies** and **E.S Mukingi** using React.js, Tailwind CSS, and Vite, delivering responsive, engaging, and user-friendly experiences.

PROJECTS

IMBONI Learn
Full-Stack E-learning and Management platform | Next.js, tailwindcss, Node.js, Express, MongoDB, WebSocket
IMBONI Learn is an online learning platform designed to help students discover and master new skills effectively.
- Developed a responsive, full-stack platform using **Next.js** and Tailwind CSS.
- Designed and optimized **database models** for efficient property search and **user management**.

IMConnect
Full-Stack Web Application | React.js, Node.js, Express, MongoDB, Socket.io
A real-time communication platform with **React.js** (frontend) and **Node.js/Express** (backend), featuring **Socket.io** for real-time messaging, user authentication, and post-sharing capabilities.
- Enabled real-time messaging and post-sharing with **Socket.io**.
- Implemented secure user authentication.
